EDUCATION

Oxford Model Senior Secondary School

Class XII – 72%

Class X – 78%

B.Tech in Computer Science and Engineering

(Dr. A. P. J. Abdul Kalam Technical University) | Kanpur, Uttar Pradesh (2022–2026)

EXPERIENCE

Bluestock Fintech | Software Development Engineer Intern

Apr 2025 – May 2025

- Built a GitHub contribution visualization platform using Flask and React.
- Optimized Docker-based CI/CD workflows, reducing deployment time by 40%.

PROJECTS

WaveTips | React.js, TypeScript, Node.js, CSS

- Built a low-cost donation platform for streamers enabling public contributions with a smooth and responsive user experience.
- Developed secure payment flow integration, real-time donation handling, and optimized frontend performance for scalability.
- Designed a modern responsive UI and implemented full-stack functionality for seamless user interaction.
- Live: WaveTips (*wavetips.tech*)

Sonic Run | JavaScript, Kaboom.js, HTML, CSS

- Created a responsive 2D side-scrolling runner game with collision detection, scoring system, and dynamic difficulty scaling.
- Ensured cross-browser compatibility and optimized gameplay for keyboard and touch controls.

SKILLS

Languages: Java, Python, JavaScript

Frameworks & Tools: React.js, Node.js, Express.js, FastAPI, Tailwind CSS, Docker, Git, GitHub

Databases: MongoDB, MySQL

Libraries: Kaboom.js, NumPy, Pandas, NLTK

ACHIEVEMENTS & CERTIFICATIONS

- Selected among top teams in the internal qualifier for Smart India Hackathon 2023.
- Azure Certification
- JavaScript (Intermediate) ,Python(Beginner)— HackerRank
